**DETAILED ACTION**

Acknowledgment is made of the amendment received on 6/29/04. Claims 1-6 and 8-13 are currently pending.

***Allowable Subject Matter***

1. Claims 1-6 and 8-13 are allowed.
  
2. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record, particularly the Blanford reference, fails to teach, or fairly suggest either alone or in combination thereof, a display which includes an optical device positioned relative to the substrate to enable an observer to view the first image on the substrate through the optical device; the display displaying the second image in the optical device in order to spatially relate the second visible data in the second image to the first visible data in the first image. Also allowable over the prior art of record is the apparatus wherein the first image having first visible data and the second image including second visible data are projected onto a projection surface such that an observer sees a composite image of the first and second visible data formed by the second image overlaid and registered with the first image.
